The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Thank you for the opportunity to comment. As a cattle & hay rancher in the Tulelake Basin I am concerned that the draft fails to address my major concerns.

I oppose any 'solution' which fails to 1) Protect surface and groundwater rights and 2) substantially increase water storage in the North State. 3) You need to strengthen county point of origin water rights before I will support conveyance of water through the Delta.
